

EIKON — User ID Password Based Access Help Guide

There are two options to log in to the database by using the login credentials (Please collect from the Library)

1. Direct login from the web (some features will not be available here);
2. Download (EikonInstaller.apac1.exe) an application file in your device. This option has complete features. (Recommended) Please refer this file '[Differences between Eikon desktop and Eikon Web.pdf](#)' for further details.

Eikon (EikonInstaller.apac1.exe / application) has been installed in a few dedicated computer systems in the library for students use, but these also can be used by any interested faculty member.

If any faculty member wish to access the database from their device, may follow these steps...

An (EikonInstaller.apac1.exe i.e., EikonInst...) installer file needs to be installed (One-time activity). Please ask the computer center for installation of an application in your device. Simple steps to install Eikon on your desktop with data streams deployed in one of several ways.

- » Visit Thomson Reuters <http://eikon.thomsonreuters.com/index.html>;
- » Click 'Sign in (Please collect sign-in credentials from the Library) & Download';
- » Install the desktop.

- » After Installation, Run the Application file Thomson Reuter... to access the database

| [Quick Start Guide](#) |

Please refer to the following files (files names are self-explanatory) which will also help you in understanding and use the database.

- ✓ [Thomson Reuters Eikon Description Sheet.pdf](#)
- ✓ [User Guide Eikon - Asset Management Shortcut Card.pdf](#)
- ✓ [User Guide Thomson Reuters Eikon Shortcuts for Equities.pdf](#)
- ✓ [Thomson Reuters Eikon Shortcuts - Print.pdf](#)
- ✓ [WotkingWithEikonNews.pdf](#)

There are certain login complexities, i.e., in case, one user is already logged in and the second user logs in with same ID/PW; the first one will be log out automatically without any warning; therefore, all faculty members are requested to keep saving your search results or data continuously to avoid any possible loss.
